

# Reneka Tempo 1 2 3 Automatic Espresso Pod Brewing Machine

Model Number: 1 2 3 Spresso / 9965

Serial Number: 241020346

Stock Number: UE2869

Manufacture Date: December, 20th, 2002

Condition: Reconditioned

Condition Notes: New Chute, Inlet Fitting, Hoses, Shower Holder & Shower Screens. Painted. Cleaned, tested and fully reconditioned by our in-house technicians. Good working, clean machine. Parts are being phased out by Boyd's. Model is no longer in production. Water temperature during testing: 180 - 195 degrees.

Dimensions: L:20" / W:20" / H:23"

Power: Electric

Volts: 115

Phase: 1

## Reneka 1 2 3 Automatic 'Spresso Pod Brewing Machine

The Reneka 1 2 3 automatic espresso brewing machine, features a patented vertical brewing technology.

This machine is designed to reduce training requirements on behalf of foodservice operators and its name signifies the simplicity of making espresso with the Reneka 1 2 3 system.

- One: Open the 1, 2, 3 espresso pod packet.
- Two: Simply drop the pod into the espresso machine and push the start button.
- Three: A perfect cup of espresso is ready and can be served to customers.

Using the 1,2,3 espresso pods that are individually, vacuum-packed and gas flushed, operators can rest assured that the espresso is fresh and the pods will not tear. Each pod features a gasket, eliminating the need to constantly monitor, adjust and change the group head's gasket.

The Reneka 1 2 3 system also eliminates the need for a grinder and port-a-filter, thereby reducing maintenance and waste. Cleaning is minimal too. After

brewing, the espresso pods automatically drop into a waste receptacle attached to the bottom of the unit.

The Reneka 1 2 3 will ensure a perfect cup of espresso in 20 seconds, meeting the needs of foodservice operators for high-quality, consistent espresso without the added labor.
